

JPY Currency Stainless Steel Pipe Fittings PER STANDARD Schedule for Duplex Applications

Our Product Introduction

for more products please visit us on flangespipefittings.com

Basic Information

- Place of Origin: CHINA
- Brand Name: KASUGAI
- Certification: ISO;PED
- Model Number: STAINLESS STEEL; DUPLEX ; SUPER DUPLEX
- Minimum Order Quantity: TO BE NEGOTIATED
- Price: TO BE NEGOTIATED
- Packaging Details: SEAWORTHY PACKING
- Delivery Time: 60 DAYS FOR ONE CONTAINER
- Payment Terms: L/C, T/T
- Supply Ability: 100 TONS / MONTH

Product Specification

- Schedule : PER STANDARD
- End Connection: BSP;NPT
- Origin: China
- Delivery: 100 Tons/month
- Size: 1/8
- Brand: KASUGAI
- Quality: Premium

Product Description

Product Description:

Introducing our premium Stainless Steel Pipe Fittings, designed to meet the highest quality standards in the industry. Crafted with precision and durability, these fittings are essential components for various piping systems in a wide range of applications. Our Stainless Steel Pipe Fittings adhere to strict quality guidelines to ensure top-notch performance and longevity. Manufactured with premium stainless steel material, these fittings are known for their corrosion resistance, high strength, and reliability. Compliant with industry standards such as ASME B16.11, MSS SP 75, MSS SP 83, and MSS SP 95, our Stainless Steel Pipe Fittings guarantee compatibility and seamless integration into diverse piping systems. Whether you require Stainless Steel Elbows, Stainless Steel Tees, or other fittings, we have you covered with a comprehensive product range. With a delivery capacity of 100 tons per month, we can fulfill both small-scale and large-scale orders promptly and efficiently. Our commitment to timely delivery ensures that your projects stay on schedule without any delays. When it comes to scheduling, our Stainless Steel Pipe Fittings follow the industry standard schedule, providing consistency and uniformity in installation and maintenance. This adherence to schedule standards simplifies the process of incorporating the fittings into your existing piping systems. The versatility of our Stainless Steel Pipe Fittings makes them suitable for a wide array of applications. From fluid handling to oil & gas transmission, petrochemical processing, and mechanical installations, these fittings offer exceptional performance and reliability in demanding environments. Upgrade your piping systems with our premium Stainless Steel Pipe Fittings today and experience the difference in quality, durability, and performance. Trust in our commitment to excellence and industry-leading standards to meet your project requirements with precision and reliability.

Applications:

KASUGAI Stainless Steel Pipe Fittings are versatile products suitable for a wide range of applications across various industries. The product attributes include the brand name KASUGAI, model numbers STAINLESS STEEL, DUPLEX, and SUPER DUPLEX, with a place of origin in CHINA. These fittings are certified with ISO and PED, ensuring high quality and reliability. The Stainless Steel Pipe Fittings are ideal for use in industries such as oil and gas, chemical processing, water treatment, and many others. The product is commonly used in piping systems that require corrosion resistance, durability, and high strength. The fittings are designed to meet the standards of ASME B16.11, MSS SP 75, MSS SP 83, and MSS SP 95. With a minimum order quantity to be negotiated and pricing also to be negotiated, these fittings offer flexibility for different project requirements. The packaging details ensure safe transportation with seaworthy packing, and the delivery time for one container is 60 days. Payment terms accepted include L/C and T/T, providing convenience for customers. Whether it's Stainless Steel Unions, Stainless Steel Elbows, or other fittings, the KASUGAI Stainless Steel Pipe Fittings offer a reliable solution for various piping needs. The supply ability of 100 tons per month ensures a steady availability of the product for different projects. These fittings are made from high-quality materials such as stainless steel, duplex, and super duplex, offering excellent resistance to corrosion and high temperatures. The fittings are available in different sizes, with a schedule per standard, making them suitable for different piping requirements.

Packing and Shipping:

Product Packaging:

Our stainless steel pipe fittings are carefully packaged to ensure their safety during transportation and storage. Each fitting is individually wrapped in protective material to prevent scratches and damage. The fittings are then placed in a sturdy cardboard box with ample cushioning to further protect them from impact.

Shipping:

Once your order is processed, our team will pack your stainless steel pipe fittings securely for shipping. We partner with reliable courier services to ensure prompt and safe delivery to your specified address. You will receive a tracking number to monitor the status of your shipment and can expect your fittings to arrive in excellent condition.
