

Duplex Stainless Steel Pipe Fittings with BSP End Connection Conforming to MSS SP 75 Standards

Our Product Introduction

for more products please visit us on flangespipefittings.com

Basic Information

- Place of Origin: CHINA
- Brand Name: KASUGAI
- Certification: ISO; PED
- Model Number: STAINLESS STEEL; DUPLEX ; SUPER DUPLEX
- Minimum Order Quantity: TO BE NEGOTIATED
- Price: PER BASE MATERIAL PRICE
- Packaging Details: SEAWORTHY PACKING
- Delivery Time: 60 DAYS FOR ONE CONTAINER
- Payment Terms: L/C, T/T
- Supply Ability: 100 TONS / MONTH

Product Specification

- Currency: USD; EURO; JPY
- Delivery: 100 Tons/month
- Material: Stainless Steel; Duplex; Super Duplex
- Application: FLUID; OIL & GAS; PETROL CHEMICAL; MECHANICAL
- Packing: Seaworthy Packing
- Schedule : PER STANDARD
- Size: 1/8

Product Description:

The Stainless Steel Pipe Fittings offered by KASUGAI are high-quality products designed for various applications in industries such as fluid, oil & gas, petrol chemical, and mechanical. These fittings are available in Stainless Steel, Duplex, and Super Duplex materials, providing durability and resistance to corrosion.

Price: The price of these pipe fittings is based on the material used, with different prices for Stainless Steel, Duplex, and Super Duplex options.

Material: The Stainless Steel Pipe Fittings come in three material options - Stainless Steel, Duplex, and Super Duplex. Each material offers specific benefits, ensuring that the fittings meet the required standards for different applications.

Schedule: The fittings are available in different schedules to meet standard requirements, ensuring compatibility with existing piping systems.

Brand: KASUGAI is a trusted brand known for its high-quality products and reliability in the industry. The Stainless Steel Pipe Fittings from KASUGAI are no exception, providing top-notch performance and longevity.

Application: These pipe fittings are suitable for a wide range of applications, including fluid transfer, oil & gas pipelines, petrol chemical industries, and mechanical systems. The versatility of these fittings makes them a valuable asset in various industrial settings.

Whether you need Stainless Steel Nipples, Elbows, Tees, or other fittings, KASUGAI offers a comprehensive range of options to meet your specific requirements. The durability and corrosion resistance of these fittings ensure long-term performance and reliability, making them a smart choice for your piping needs.

Features:

Product Name: Stainless Steel Pipe Fittings

Material: Stainless Steel; Duplex; Super Duplex

End Connection: BSP; NPT

Delivery: 100 Tons/month

Price term: FOB; CNF; CIF; DDP

Origin: China

Applications:

Stainless steel pipe fittings from KASUGAI are versatile products that can be used in a wide range of applications across various industries. With models available in stainless steel, duplex, and super duplex materials, these fittings are known for their premium quality and durability. Manufactured in China, they come with ISO and PED certifications, ensuring high standards of safety and performance. The stainless steel pipe fittings are suitable for a multitude of product application occasions and scenarios. They can be used in industrial settings such as oil and gas, chemical processing, and petrochemical industries. The fittings are ideal for connecting and joining stainless steel pipes in pipelines, plumbing systems, and hydraulic systems. Whether it's stainless steel couplings, stainless steel nipples, or other types of fittings, the KASUGAI brand offers a wide selection to meet different needs. The minimum order quantity for these fittings is to be negotiated, making them suitable for both small and large-scale projects. The pricing is based on the per base material price, with payment terms available in L/C and T/T. The packaging details include seaworthy packing, ensuring safe transportation and delivery of the fittings. With a supply ability of 100 tons per month, customers can rely on KASUGAI for consistent availability of these high-quality fittings. The delivery time for one container is 60 days, and the price terms include FOB, CNF, CIF, and DDP options. Customers can make payments in USD, Euro, or JPY, providing flexibility in transactions. The end connections for the stainless steel pipe fittings include BSP and NPT options, further enhancing their versatility and compatibility with different systems. Overall, these fittings offer a reliable and efficient solution for various piping applications, making them a preferred choice for industries looking for premium quality fittings.

Support and Services:

Our Product Technical Support team for Stainless Steel Pipe Fittings is dedicated to assisting customers with any technical inquiries, installation guidance, and troubleshooting support related to our products. Our team of experts is available to provide comprehensive technical assistance to ensure the optimal performance and functionality of the Stainless Steel Pipe Fittings.

In addition to technical support, we offer a range of services for Stainless Steel Pipe Fittings, including installation services, maintenance support, and product training sessions. Our goal is to provide our customers with the necessary resources and assistance to maximize the efficiency and longevity of their Stainless Steel Pipe Fittings.
