

DDN5-DN600 Diameter Cold Drawn Seamless Steel Pipe with EN Certification

Basic Information

- Place of Origin: CHINA
- Brand Name: KASUGAI

Product Specification

- Business Type: Manufacturer
- Diameter: DDN5-DN600
- Tolerance: $\pm 0.02\text{mm}$
- Usage: Construction Structure
- Payment Term: 30%T/T Advance + 70% Balance
- Thickness: 1-8mm Thickness
- Price Term: CIF CFR FOB EX-WORK
- Technique: Cold Drawn/Hot Rolled

Product Description

Product Description:

The Seamless Stainless Steel Pipe is a high-quality product that is ideal for various industrial applications. It is designed to withstand high pressure and extreme conditions, making it a reliable choice for demanding projects.

Constructed using advanced technology, this seamless steel pipe is produced through a combination of cold and hot rolling processes. This ensures a high level of precision and consistency in the product, meeting strict quality standards.

The payment term for this product is 30% T/T advance + 70% balance, providing flexibility for customers to manage their finances effectively. Additionally, the price term options include CIF, CFR, FOB, and EX-WORK, allowing customers to choose the most suitable option for their specific needs.

With a tolerance of $\pm 0.02\text{mm}$, this Seamless Stainless Steel Pipe guarantees accurate and precise performance in various applications. Whether used in construction, oil and gas, or other industries, this product delivers reliable results.

The thickness of this seamless steel pipe ranges from 1mm to 8mm, offering versatility for different requirements and applications. This wide thickness range ensures that customers can find the perfect fit for their projects.

Overall, the Seamless Stainless Steel Pipe is a top-of-the-line product that excels in durability, performance, and quality. It is the perfect choice for those in need of a high-pressure seamless steel pipe that is cold drawn and built to last.

Features:

Product Name: Seamless Stainless Steel Pipe

Other Grade: 316L, 310S, 321, 347, 2205, 904L, 2507, etc

Price Term: CIF, CFR, FOB, EX-WORK

Product Description: Seamless Stainless Steel Pipe

Technology: Cold and Hot Rolled

Tolerance: $\pm 0.02\text{mm}$

Applications:

KASUGAI Seamless Stainless Steel Pipes, originating from China, offer a versatile and durable solution for various industrial applications. With other available grades including 316L, 310S, 321, 347, 2205, 904L, 2507, and more, these pipes are suitable for a wide range of scenarios.

Thanks to their cold drawn and hot rolled technique, KASUGAI Seamless Stainless Steel Pipes exhibit exceptional quality and strength. The cold drawn seamless steel pipe design ensures precision and uniformity in dimensions, making them ideal for applications requiring high precision.

These pipes are particularly well-suited for applications where cold rolled stainless steel pipe is required to withstand harsh conditions or corrosive environments. Their high-pressure seamless steel pipe design makes them suitable for use in industries such as oil and gas, chemical processing, and water treatment.

The payment terms for KASUGAI Seamless Stainless Steel Pipes are convenient, with a 30% T/T advance payment followed by a 70% balance payment. Additionally, the price terms available include CIF, CFR, FOB, and Ex-Works, providing flexibility for different purchasing arrangements.

Whether it's for construction projects, industrial machinery, or fluid transportation systems, KASUGAI Seamless Stainless Steel Pipes offer reliability and durability. Their cold and hot rolled technology ensures consistent quality and performance, making them a trusted choice for various product application occasions and scenarios.

Support and Services:

Our Product Technical Support and Services for the Seamless Stainless Steel Pipe include: -----

- Expert consultations on product specifications and applications
- Assistance with selecting the right grade and size of stainless steel pipe
- Guidance on installation, maintenance, and troubleshooting
- Product training and educational resources
- Warranty support and after-sales services
