Product Specification

Product Description

Product Description – Blind Flange (BL RTJ)

Brand: KSG (Kasugai Co., Ltd., Japan)

Product: Blind Flange (RTJ Type)

Standard: ASME B16.5

Pressure Rating: Class 900

Material: ASTM A182 F11 (Alloy Steel)

Type: RTJ (Ring Type Joint) Facing

Overview

KSG Blind Flange (BL RTJ) Class 900 is designed to seal the end of high-pressure piping systems. Manufactured from high-quality ASTM A182 F11 alloy steel, it ensures excellent mechanical strength, high temperature resistance, and long service life under demanding conditions.

The RTJ facing provides a reliable, leak-proof sealing performance, making it suitable for critical applications where safety and tight sealing are essential.

Key Features

High strength alloy steel (F11) for elevated temperature service

RTJ sealing design for superior leak tightness

Suitable for high-pressure systems (Class 900)

Precision machining and strict quality control (Japan standard)

Long service life with excellent corrosion and creep resistance

Applications

Oil & Gas (Upstream / Midstream / Refinery)

Petrochemical plants

Power generation (thermal / combined cycle)

High-pressure steam and pipeline systems

Shut-off points for maintenance and inspection

Advantages for Stockists

Stable Japanese quality – suitable for long-term supply programs

Widely used specifications – easy to distribute and stock

Compatible with international standards (ASME / ASTM)

Reliable performance reduces after-sales risk

Optional Services

EN 10204 3.1 / 3.2 certification

NACE compliance (upon request)

Custom marking & traceability

Anti-rust protection & export packaging
